

FS 2024: Seminar on Microwave and Atmospheric Physics

Friday 10:15 – 12:00, Room A97

29.01.2024	Ruth Liebermann, NASA TBD
23.02.2024	No seminar
01.03.2024	Lucia Kleint, AIUB Space Weather and Research at the Zimmerwald Observatory
08.03.2024	Giuseppe Addamo, CNR Design of multi-band horn antennas
15.03.2024 14:15-15:30	Florian Kerber, ESO Ozone Observations at the Astronomical Observatory Paranal
22.03.2024	No seminar (EUCAP conference)
29.03.2024	Easter
05.04.2024	Roland Albers, IAP Antenna simulations and radiometric calibration of the Arctic Weather Satellite
12.04.2024	Cancelled
19.04.2024	No seminar (EGU conference)
26.04.2024	Gennadi Milinevsky, Jilin University Ozone Observations with a 110 GHz radiometer in China
03.05.2024	Mikko Kotiranta, IAP Characterisation of Internal Calibration Subsystems for Space Based Microwave Radiometers at Millimetre Wave Frequencies
10.05.2024	Adrianos Filinis, IAP Development of a cryogenic 22GHz radiometer for middle atmospheric water vapor
17.05.2024	Marco Gabella, MeteoSwiss Radar meteorology in complex orography and the operational, state-of-the-art radar network run by MeteoSwiss
24.05.2024	Renaud Matthey, IAP Implementation of depolarisation measurement capability on the MeteoSwiss RALMO lidar
31.05.2024	MW Exkursion AKW Mühleberg
